

Pro93 True RMS AC Leakage Clamp Multimeter

GREAT FOR 2-WIRE SYSTEMS

- Measures AC Leakage in milliamps
- Measures AC, DC, Ohms, and Hz
- Auto-Ranging
- Backlit Digital Screen
- Solid Design

PRODUCT DESCRIPTION

The Pro93 True RMS AC Leakage Clamp Multimeter is perfect for 2-Wire troubleshooting. The Pro93 measures AC amp current leakage to a resolution of 10 micro-amps simply by using the integrated clamp over the cable in question. In addition, VAC, VDC, Ohms, and HZ measurements are available. All utilize a built-in auto ranging function for easy use. The Pro93 makes diagnosing cable faults in 2-Wire systems simple and easy to perform.

PRODUCT FEATURES

- Measures from 50 micro amps, a critical and necessary feature to diagnose 2-wire fault issues
- Auto-off after 10 minutes idle
- Back-lit screen for dark areas
- Simple operation

SPECIFICATIONS

Weight:	Less than 1 lb. with packaging
Voltage:	VAC to 600V VDC to 600V
Resistance:	Up to 1000 Ohms
Amps:	Range from 50 micro amps to 10 amps; Resolution to 10 microamps
Hertz:	Volts and Amps to 1Khz

PACKAGE INCLUDES

- Pro93 Meter
- Carrying Case
- Test Probes
- Instructions
- Batteries
