

APPLICATION NOTE

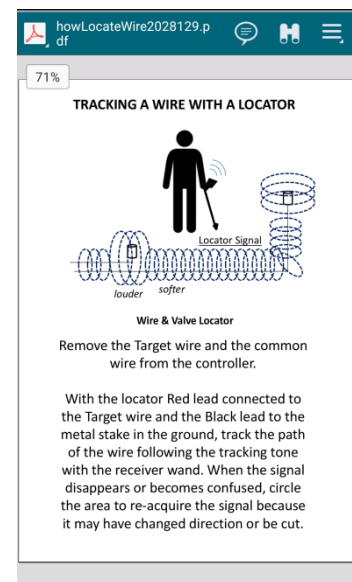

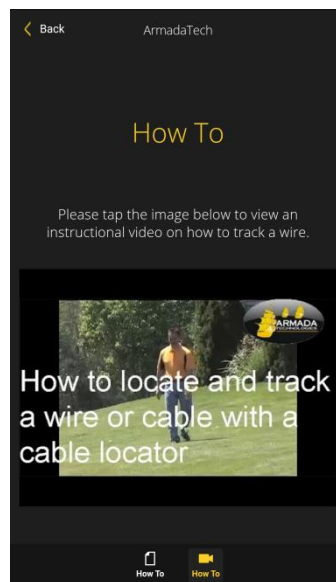

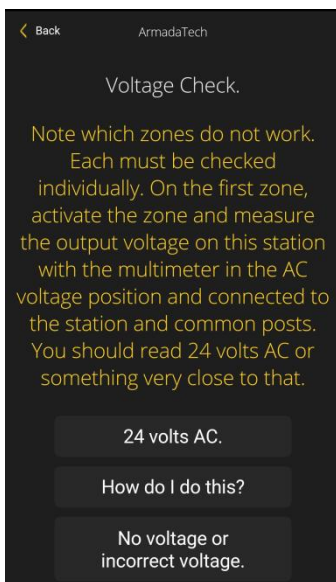

January 2017

THE ARMADA TECHNOLOGIES TROUBLESHOOTING APP

If you have a smart phone you have a partner in finding trouble in electrical irrigation control systems made by a wide range of system manufacturers.

The Sprinkler System Repair application from Armada Technologies is made for both Android and Apple iPhone users and can be retrieved from the internet at no charge.

Some sample screens from the App:

How to Find Valves, Test Controllers, Check Valve Solenoids, Locate Cables and more ...

Look for the Armadatech "Sprinkler System Repair Guide" at the Android or iPhone App Stores.
